NATCO, we work each day to build. That's what we have done for every one of the 18+ years we have been in business. As a company, we are only ever as good as the value we deliver, the solutions we create, and the relationships we build.

To be our best, we must build at our best. Our best starts with a solid foundation—and, at NATCO, that foundation is our team. We are deeply invested in and committed to our employees. Without their talent, collaboration, and drive, what we build would not be its best.

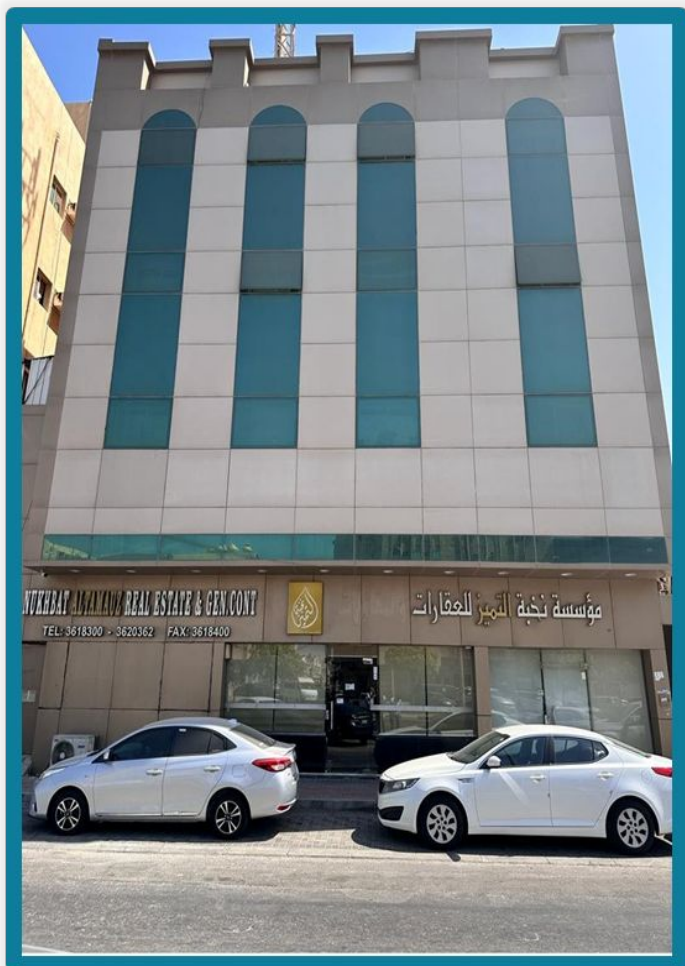

Our excellence, at present and in future, depends on us attracting and retaining the best and brightest talent available. By providing training and career development, an innovative work environment, and a rewarding culture, we ensure that our foundation is at its strongest—and is poised to best serve our partners and clientele.

Nukhbat Al-Tamuz General Contracting Est.(Natco)

was formed on 2005 the objective of providing quality general contracting, Real Estate, mechanical, electrical, Instrument, Fabrication, Industrial Material Trading, Building Maintenance, equipment rental, plumbing, HVAC services and Manpower Supply to our clients and Leak Sealing Services.

Since its inception, has rapidly developed its capabilities to become a full-fledged service provider in the field of Mechanical, Civil and Electrical. Its absolute commitment to total customer satisfaction and it played a key role in our path to success.

Based on its excellent safety performance, highest level of quality standards and proven ability to deliver on timely manner, has been long-term partner of the choice of majority of its clients. We offer a wide range of services to Operation, Maintenance and Construction Industry

Company Message

The industrialized society that we live in today has swept along on the tides of change.

With our Mobile Blasting Units and Coating Units, we can travel anywhere to complete the job and In-House we have space for your Blasting & Coating requirements.

PAINTING & SANDBLASTING SERVICES

Excavation & Backfilling Works

Earthwork in excavation and backfilling of soil up to required depth is required for construction of foundation. The proper sequence of excavation and backfilling is required to optimize the process and prevent safety issues. Excavation and backfilling of soil is a very important part of the construction process, and care must be taken while excavating in safety perspective. Different soil layers may be encountered while excavation, dewatering may be needed sometimes. These points must be kept in mind to take necessary action during excavation and backfilling. Correct measurement of excavation and backfilling is required because excavation cost is major part of the foundation construction.

EXCAVATION & BACKFILLING WORKS

We provide complete services with all required Aramco Approved Certified equipment to perform the scope in satisfaction of Client.

1. Foundation Excavation.
2. Backfilling.
3. Site Work.
4. Trenching.
